Mississauga, ON | (647) 807-6541 | [rusanthpirabakaran@gmail.com](mailto:rusanthpirabakaran@gmail.com) | [linkedin.com/in/rusanth-pirabakaran](https://linkedin.com/in/rusanth-pirabakaran) | [github.com/Rxddy](https://github.com/Rxddy)

## EDUCATION

### Wilfrid Laurier University

*Bachelor of Science in Computer Science*

Waterloo, ON

Sep. 2022 – Dec. 2026

*Relevant Coursework: Data Structures, Algorithms, Database Systems, Web Development, Operating Systems, Object-Oriented Programming*

## EXPERIENCE

### Classic Bowl

*Control Counter Associate*

Mississauga, ON

July 2021 – Present

- Work in a fast-paced customer environment and handle a high volume of transactions with consistent attention to billing, payments, and order details.
- Troubleshoot day-to-day POS issues, resolve customer problems quickly, and keep front counter operations moving during busy shifts.
- Built strong habits around clear communication, attention to detail, and staying organized when priorities change quickly.

## PROJECTS

### TrueNAS Home Server Administration | *TrueNAS, ZFS, Linux, SMB/NFS*

Jan. 2024 – Present

- Built and maintain a TrueNAS server for shared storage, backups, and day-to-day home lab use.
- Configured RAID 1 mirroring, SMB/NFS file sharing, and user permissions across multiple devices on the network.
- Set up monitoring for disk health, storage usage, and basic network activity, and documented backup and recovery steps for easier troubleshooting.

### Peripheral Battery Monitor | *Python, Windows, Bluetooth, Bleak*

- Built a Python utility that checks battery levels for Bluetooth peripherals on Windows.
- Used device scanning, address matching, and battery service checks to handle missing devices and unsupported hardware cases.
- Added configurable device matching and clear output to make peripheral troubleshooting easier and more repeatable.

### Gmail Spam Cleaner Desktop App | *Python, Tkinter, Gmail API*

- Built a desktop application that connects to Gmail, scans recent messages, and helps review suspected spam before cleanup.
- Added settings management, error handling, threading, and progress feedback to improve the user workflow and make issues easier to isolate.
- Worked through OAuth setup, Gmail labels, and API response issues while documenting common setup and authentication problems.

## TECHNICAL SKILLS

**Operating Systems:** Windows, Linux

**Languages:** Python, Java, JavaScript, HTML/CSS, SQL, C++

**Tools and Technologies:** TrueNAS, Git/GitHub, Node.js, React, MongoDB, REST APIs, Tkinter, Bluetooth LE, Prometheus, Grafana

**Support and Systems:** End-user support, hardware troubleshooting, software troubleshooting, POS troubleshooting, backup and recovery, SMB/NFS file sharing, user permissions, system monitoring, technical documentation, peripheral setup, troubleshooting and debugging

## ADDITIONAL INFORMATION

**Technical Interests:** IT support, hardware setup, home server administration, network troubleshooting

**Languages:** English (Fluent), Tamil (Conversational)

**Currently Learning:** CompTIA A+ certification objectives, Cisco CCNA 200-301 networking fundamentals
